

Brief Interview with Yuichiro Nishida (Editor)

Endocrinology & Metabolic Syndrome

1. How many years have you been practicing and/or performing research?

19 years

2. What is the research topic you are working on now?

Exercise therapy for preventing common diseases

3. What makes an article top quality?

Quality of manuscript depends on quality of research.

4. What are the qualities you look for in an article?

Originality

5. Do you have any research funding (NIH or other national funding) now?

Yes (Grants-in-Aid for Scientific Research from the Japanese Ministry of Education, Culture, Sports, Science and Technology)

6. When did you become an editor of OMICS Journal?

2011

7. What is your greatest career accomplishment?

Publishing many papers in good journals

8. How does the research published percolate through to practitioners?

It may be important to write intelligible papers which provide useful information for practitioners.

9. What is the purpose of serving as an editor?

Contribution to the scientific field of endocrine and metabolic syndrome

10. Do you have any patents?

No

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

No

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Yes

13. Do you have any trouble with OMICS Journals in the past?

Yes. Although I sent an e-mail to editorial office through journal website, there was no reply. That occurred more than once.

14. Would you recommend OMICS to your friends or colleagues?

Yes

15. How do you differentiate Endocrinology & Metabolic Syndrome with other journals in the field?

Fast publication and open access
