

Journal of Fundamentals of Renewable Energy and Applications

Editorial: Journal of Fundamentals of Renewable Energy and Applications

Praneeth Janagani

The journal has been started in the year 2011 and it released its first volume in the same year. Till now, the journal has released 9 volumes by the end of 2019 and is successfully running its 10th Volume.

The Journal of Fundamentals of Renewable Energy and Applications is an open access publication that features scientific works of considerable significance and impact in all fields of Renewable Energy research such as: solar energy, wind energy, hydro energy, wave energy, geothermal energy, biomass energy as well as thermal, chemical and nuclear energy. Topics such as biomass harvest, storage, handling, preprocessing and conversion, the impact of global warming on ecosystem and human health, carbon dioxide mitigation, energy management, innovative energy technology and social, economic and environmental substantially of energy supplies are also covered by the journal.

During the year 2019, the Journal has released nearly 20 articles. During May, Longdom Group has acquired this journal from Omics group and from then on all rights has been taken by the Longdom Group only.

Some of the articles released in 2019 are as follows:

1. Using Wind and Hydro Power to Sustain the Off-Grid Power Supply for a 50' Cruising Sailboat
2. Understanding of Ground Water-Surface Water Relationship through the Analysis of Ground Water Flow System of Part of Bengal Delta
3. Austere Location Wind Turbine Energy System Analysis
4. Comparative Exergy Experimental Evaluation of Parabolic and Elliptical Solar Cookers
5. Application of Crispr Technology for the Generation of Biofuels: A Review

The journal has released the conference details relating to the journal in December 2019.

In the same way, the Journal expects to cover all the above classification topics for the year 2020 along with the present research in this field along with the current situation prevailing in globally.

Social media/digital marketing

The journal always was in contact with the scientific group of the world through its mails, social media networks and its digital platforms. Some of the best ways to be in contact with the audiences' are:

1. Twitter postings: Regularly posting the articles, trends, updates of the journal. They can be visible at: @Energy2009
2. Posting Google Analytics data in the website.
3. Using LinkedIn and Facebook for regular updates.
4. Regularly being in contact not only through mails but also through Whats App.

The complete details about the journal can be seen at: <https://www.longdom.org/fundamentals-renewable-energy-applications.html> and for contacting us, mail us or Whats App us.

Lastly, Journal of Fundamentals of Renewable Energy and Applications is nothing without the continuous support of the Editorial Board Members especially our Editor-in-Chief Abdel Ghaly. The

Journal of Fundamentals of Renewable Energy and Applications

Editorial

Editorial Board members are the back bone of the journal. Along with them, authors and reviewers play a very significant role in building this journal.

So, as an Editorial Co-ordinator I invite all the extended dignitaries in this field to submit their articles for bringing this research/expertise to the global scientific community.
